

# Submission guidelines

---

1. Locate your project folder in the file system.
2. Make sure that all of your **.cpp** and **.h** files are in the project folder.
3. If they are not, you can locate them in Visual Studio:
  - a. Select the lost file in the Solution Explorer.
  - b. Press **F4** (fn+F4) to display the Properties window for the file.
  - c. In the Properties window, copy the value of the **Full path** property.
  - d. Paste this into the address bar of a file system window to navigate to the location.
  - e. In Visual Studio, remove the file from the project (remove, not delete).
  - f. In the file system, move the file to the project folder.
  - g. In Visual Studio, re-add the file to the project. Select Add > Add existing item...
4. If you are submitting only **.cpp** and **.h** files:
  - a. In the project folder, select all of the **.cpp** and **.h** files, and add them to a **.zip** archive.
5. If you are submitting the entire project, including **.cpp**, **.h**, and **.vcxproj...** files:
  - a. Ensure that your file system is showing hidden items (checkbox in View tab).
  - b. In the project folder, delete any folders named **Debug**, **Release**, and (especially) **.vs**.
  - c. Add the entire project folder to a **.zip** archive.
6. Rename the **.zip** archive so that it contains both your name and the name of the assignment.
7. Submit the **.zip** archive.
